Review Title: Avant has some of the worst customer...

Review Description: Avant has some of the worst customer service that I have ever experienced. They refuse to help and communicate with him even though I have had surgery done on my vocal chords. Their solution was for me to hire someone to go into more debt in order to pay off their debt. By far the worst experience I've had and I do not recommend anyone using this company for a credit card

Review Description: After looking into credit card consolidation I decided my best bet was a small loan. Avant made the process easy. I liked being able to handle the process online. I felt the verification was thorough and safe. My money was deposited quickly. It came with autopay ready to go which is a plus. No use fixing credit cards if you mess up with the loan. Overall would recommend.

Review Title: Englisch not perfekt but happy

Review Description: Geld was in account very quickly, I consolidated a credit card and paid off 2 loans that balanced under \$500, I could've asked for more but this was to kill (most) of my debt, spent 6 years learning American credit, very good to get cards under 30% and be rid of high interest. Having bad credit is a struggle and you're stuck with 30% rates which is very high and punished the poor. I am way more frugal and didn't want a loan but the rates were so good I knew consolidated is what I needed! Please be thankful for the simplicity of a single payment with many options on how to pay. Paying towards principal every month along with payment is very smart also. I hope this helps!

Review Title: I was very disappointed with this...

Review Description: I was very disappointed with this company. I applied through Credit Karma and was told I had an outstanding chance of being approved. I went through the entire process even getting a hard inquiry on my credit report which I was told would not happen until I accepted the loan. I was even sent a promissory note with all of the loan details. Sent in all the requested documents and speaking with a couple of representatives. Only to be told that my loan was denied. A waste of time if you ask me.

Review Title: Learning the ropes

Review Description: I have used card several times and it was great until I got a decline at grocery. Come to find out because I had used my card a lot in a few days AVANT put a hold on it. I had to call and ask why! They then released the hold and all is good. I wish they would have notified me about the hold instead of me asking. I love the phone automation so much faster than talking to someone. I All set aside I really like AVANT!

It NEVER worked again until several days later and then only worked once every couple of days. I would NEVER recommend this card to anyone!!! I'm paying it off and cutting it up. Review Title: I'm a dad of 3

Review Description: I'm a dad of 3. I share custody with my ex. Before my split, I owned a house and my credit was in the high 700's. Plenty of offers for c/c. It made life easier/better. Christmas, birthday vacations , random emergencies could be handled and slowly paid off. The divorce was brutal leaving me, among other things, in financial ruin. It's been over 5 years and I have built a nice life for me and my kids. The only thing that still plagued me was my credit. Credit that my ex destroyed. (I know, I know. Poor me) I'm in a better situation now with a good job. I pay my bills, taxes, etc. yet no company would give me a chance to prove I can be trusted again with a line of credit. Holidays, bdays became much more..limited. Vacations were non existent. And random emergencies were simply not allowed! AVANT is giving me the chance to feel more secure in life. Much more able to truly enjoy the small things that are often overlooked when money is a constant worry.

One full time job with 2800 euro paid monthly and one partime 160 weekly.I was called by a person from their company asking me if my salary from the part time job is my monthly salary, they already having the last 6 payslips (3 from full time job and 3 from part time job). You will realize how well informed the gentleman who called me was.(this staff is totally beside the point). Was provided the last 6 payslips from both jobs. Review Title: Credit Card Bait & Switch

Review Description: TL;DR: Questionable applications opened & poor customer service. Transparency is the issue. I was offered a 2% rewards card if I applied and opened a new account with Avant through Credit Karma. I did as told. I discovered that two applications were opened when I applied in February 2024. This concerned me; so, I emailed Avant support asking if the card I was approved for was still a rewards card. (I hadn't received anything in the mail yet.) I was told to call. I did. I was told that it was in fact the rewards card. I also was told via email that I would receive a separate email verifying the rewards portion. I never did. I tried emailing again and received another 'call support' response. So I did. Then the system was down; no help again. I decided to make an approximate \$15 purchase to see if any rewards would generate. Nothing. I called again today (05March2024) and was told that it wasn't a rewards card and that I can't have two cards. I tried to explain that I only applied for the one. I was given a scripted response. I asked for a supervisor. I was told one wasn't available and to request a callback when one was. I then closed my account. I will not work with a company that cannot provide a straight answer; especially when it appears that two applications were opened at once without my consent. If you never have to ask for support, this card will be ideal. Please improve communication.

Review Description: It is one of the worst credits I have ever had in my life, it is definitely my fault for not reading the interest rate correctly, it is exaggeratedly expensive!! I had the credit for 7 months and of the 4 thousand they lent me, the balance I settled was \$3,750!!!! In the 7 months I only paid 250 of the balance!! and my payments were \$360 dollars a month!! I would never recommend this credit company because they take advantage of people's needs!! I understand that there must be a profit but this interest rate is an exaggeration!!!

The process is extremely fast and they give you different payment options, showing you everything up front before you accept the teams. The loans do not have any early payment penalties, so if you are able to pay extra and/or pay it off quickly you can avoid the high cost.

Review Title: Outrageous Fees

Review Description: I have to agree that it getting the loan was simple but I would not recommend getting it unless you are certain will you play the loan back in a matter of days. The interests rates are outrageous on top of the \$5.52 charge each day. Borrowed \$1500.00 in November, paying \$100.00 every other week and still have a balance of 1480.00. I would not recommend getting yourself in this kind of bind. I pay it because I don't want to mess up my credit. Biggest mistake ever.

Review Title: I took a loan out back in July

Review Description: I took a loan out back in July. I've been making payments of about 500 a month and my balance owed has only decreased by about \$71.00. I understand this is an expensive loan but to pay over 2k and only have my balance decreased by \$71 dollars, that is ridiculous. If you're considering taking a loan out, go somewhere else. there is no reason why you should be paying over 2k only for your balance owed to be decreased by such a small amount.

Review Title: Run fast and far away!!!!

Review Description: It's super easy and quick to get the money. It's also super easy to set up payment. My problem is the 134% interest. I understand you're here to make money, but after paying on a \$5000 loan for over a year now and still owe \$4700 feels like straight up robbery. Long story short it's super easy to sign yourself up to be taken advantage of. Thanks for the money, but please dissolve your company and yourselves.

Review Title: Fast and easy to use

Review Description: Was need to get a loan to consolidate my credit cards to try to get my credit score up. This company was very easy to use and they were very fast about the process. They show you your payment schedule and are very upfront about their pricing. The loan is super expensive but I'm someone who needed it to help increase my credit score so it worked for me.

Review Description: I put in my application the Friday before Christmas. And I was hoping to get my loan on Saturday. But because it was on Friday the system was telling me I would probably going to get it on Tuesday the day after Christmas. When I opened up my bank account on my app on Saturday low and behold I had my loan on Saturday. My experience with rise credit was great was easy and I got my loan right away.

Review Title: You will be taken advantage of with a high APR.

Review Description: I pulled out a loan for 3500 to take care of unforeseen events in my life. They deposit the funds into your account within 24-48 hours however here's the negative, they take advantage of the fact that you need money and take advantage by giving you a rate of 149%, that means if by the end of the loan term the total will be over 10,000\$.

Review Title: This is a predatory loan

Review Description: This is a predatory loan. It only gives you the option to pay more on the principal the same day payments are due, therefore if you think you want to pay it off early think again, you will be paying in full or paying twice as much over time on the loan. It does not allow you to remove autopay, it basically sets you up for failure. I have been paying on it for over 3 months now and still owe more than the amount I took out. I only got it to help with my credit and its not even reporting. I will be paying it and full and cashing it out on my next payday. Had I known what I knew now I would not have gotten it.

Review Title: Fast services and approval...BUT!!!!

Review Description: Fast services and approval...But however the pay back is out outrageous. Please make sure you apply on a desktop and not your cell phone were you can see every little detail. If I would have done it on the desktop I probably wouldn't have gotten this loan. Just because of the pay back. So it's based off how often you get paid not once a month like most loan companies I have dealt with in the past. Also the APR IS WAYYYYYYY TO HIGH. If you're not good at managing your money you could hurt your credit then try to build your credit.

Review Title: I would avoid this company at all...

Review Description: I would avoid this company at all costs. I paid my loan off early and they still took out a payment from my account. When I called on it, I was told it would be 3 to 5 days. They can give you money the same day but fixing the problem takes 3 to 5 days. They keep my money but when or if they return it without interest. 144% interest on my loan but no interest on keeping my money. ***UPDATE*** Today is 02/20/2024 and I'm still waiting for my refund. Was told this past Thursday that the refund would be there on friday. Guess what it's Tuesday and was told again today 3 to 5 days but they are trying to expedite it. They can mess around with my refund but be one day late and they blow up your phone. Shame on this company.

Review Title: I had been paying on time

Review Description: I had been paying on time, then due to my local bank closing, I had to change banking accounts. Rise made it very difficult for me to update this information online so I resorted using my debit card to make payments online instead of checking account information. Long story short, they flagged my debit card as fraudulent and I was unable to make any more online payments. They will only receive cashiers checks as a single parent working full-time it's hard to make it to the bank during banking hours to get these checks. Every time I get a different story one lady one as far as to letting me send her my new checking information via email and told me it would be updated so I could continue to make payments online. This never happened now now I can't even access my online account to see how many payments I have left. Yet, I still continue to make my payments.

Review Title: I don't know what to believe anymore with Rise???

Review Description: I am not really sure what to say or where to begin. I get this flyer in the mail with hopes to apply for this loan and get some added help. So me and my roommate elect to apply for a loan we both get approved for up to 5,000. So we choose what we want and it shows the amount we pay and the interest and the payments. So except the terms and sign the loan agreement and think we are getting funds in the next 24 hours like it says. Nope no funds I get an email later that day that we both need to send in information to verify my ID, SS card and recent bank statement. We both send the required info I call back they got both of our information and good to go. They said need to sign back in and except the terms and the loan again and sign we do that then told get the funds in another 24 hours. Okay at this point I am like okay wow this as gone on for 2 days now back and forth. I have been told I was approved and get my funds and haven't. I check my email today and we both got an email saying we were denied. I am like what denied for what we were told we were approved it says this reason for denial "unable to verify application information based on documents provided". So at that point I'm frustrated and upset feel lied to and betrayed I call back and ask for a better clarification they can't give me one they said it's automatic generated response I am like give me a number don't have one. Wow and no one there a supervisor no one can assist. They tell me all you can do is wait the 10 days and apply again wow I'm thinking and this is a company. They should be taking to court on this and sued. They even hit me with a hard inquiry and it says will run credit for a hard inquiry once signed and approved well I was WTH!!!! I guess the next time should be cautious with who I try to do business with.

Approved for a loan one day, let's get you scheduled for paperwork, etc. Took time off work to go in but wait, there were more questions the next day of the appointment because she couldn't remember or forgot to take good notes. Now I can't get "you there because of some algorithm and her mistake in her input, oops" More input is needed, and more documents should be asked for - get the full picture of a person before becoming complacent and lazy in your job. Not at ALL recommended - be wary - be careful!! Returned calls multiple times and can get no answers other than leaving an additional voicemail... for another return call.

Review Title: Amada was great to work with

Review Description: Amada was great to work with. The only thing that's illegal in California. If I should die before this loan is paid off. That my children would be responsible. They have no irfan of my business. And they never sign a contract. Need To research before you think that's happing. Don't set your company up for a law suit.

Review Title: Kimberly at the branch in Idaho falls...

Review Description: Kimberly at the branch in Idaho falls with one main financial was very unprofessional. She did not want to take the time to try to get the banking correct. She was supposed to have it all set up so all I had to do was walk in and sign the paperwork and walk out as I told her I had to do it on my lunch. She did not have anything prepared with my insurance company but complained about how difficult they were to work with. She did not tell me that I would have to call and have them send her things so I could have the loan processed. Because we had to do all of this, and she did not have it set up I was over 40 min late getting back to work. So, I called her the next day to ask her some questions and she was very short and rude and hung up on me. If you need a loan, PLEASE DO NOT COME TO THESE PEOPLE because they will not take good care of you in my opinion.
